

XENOMORPH XX121

"Because if just one of those things gets down here, then that will be ALL, and all this... this bullshit(!) that you think is so important, you can just kiss all that goodbye!" - Ripley E.

The 'Perfect Organism', AKA *Internecevus raptus* or Xenomorph XX121. Is a survivor... unclouded by conscience, remorse, or delusions of morality. A ceaselessly-adapting apex predator, and thorough in its pursuit of violence. Maturation can occur in any kind of host and the process takes only days. Communicating with its matriarch via telepathic methods yet unknown to science. Any drone can become a Queen if left without its brood. As if it couldn't get worse, they have concentrated acid for blood...

It is irrelevant where they originate from, all that matters is they are here...

LASALLE BIONATIONAL

Established during the late 2130s by former Weyland-Yutani VP Brendan Lasalle. It wasn't long before his company acquired a lucrative government contract to produce an inexpensive, radiation-resistant corn substitute. The company was controlled by the Lasalle family, handed from father to daughter.

Lasalle Bionational is in a constant bio-arms race with Weyland-Yutani to secure bioweapons contracts with the USCMC and each is constantly the victim of corporate espionage and sabotage by the other.

After Brendan Lasalle's retirement from the CEO position, his daughter, Edina Lasalle, took over the company and decided to boost the company's bioweapons department in order for Bionational to survive and has stepped up her father's initial plans to sequence the genome of Xenomorph XX121.
