

# THE EVERRAIN

## OFFICIAL FAQ v1.0

### GENERAL

**Q** Do Enemy Ship cards get shuffled into the Enemy Deck, or should they be kept separate?

**A** It's easier to keep them separate in their own little deck, next to the Enemy deck.

**Q** Can I sail through another ship's space?

**A** Yes, as long as you have enough Navigation points to finish in unoccupied space.

**Q** What should I do if there are two equal choices, such as an enemy having two possible routes?

**A** Roll the Fate die and let Fate decide!

**Q** I've just returned from a Port visit/Expedition/Boarding and all Crew are placed Below Deck. Can I choose where to place them and use Upgrades?

**A** Yes, though they may only use Upgrades if they are not Fatigued (p18)

**Q** A Story card instructed me to spawn a Storm, but it's only Act 1. Do I ignore this?

**A** No, you should spawn the Act 2 Storm early.

**Q** At the end of the Act it says to spawn an Enemy Ship on a random Enemy Ship Spawn space, but I haven't found one yet. Do I still spawn an Enemy Ship?

**A** No, they cannot spawn if an ENemy Ship Spawn space has been discovered.

**Q** I'm stuck! I haven't found a Port yet and my Crow's Nest has been destroyed, so I can't discover new tiles and have no way to repair my Crow's Nest. Is it game over?

**A** This is an incredibly rare set of circumstances, but yes, you should reset and start over.

## PORTS

**Q** The Denizen Passenger card I've drawn wants to be taken to the Port I'm visiting. What do I do?

**A** Draw another card.

**Q** Do Port actions get resolved in an order of my choosing? A Denizen has a Relic I want, but I need to send someone to the Marketplace first to sell some stuff.

**A** A: Yes.

## COMBAT

**Q** Do Enemy Ships require line of sight to attack players?

**A** Yes.

**Q** Can enemy special abilities activate if my Crew triggered the Fray?

**A** Yes, it's just less likely because enemies roll -1 die when resolving a Crew triggered Fray

## ADVANCED RULES

**Q** I've completed boarding an Enemy Ship, but what is the reward for this? It says "Collect the Spoils Reward displayed in the bottom left corner of the Enemy Ship board" but I cannot find it...

**A** This is the one and only mistake that we're aware of, so there is no number in the corner of the ENemy Ship board. However, this is an easy fix! Simply roll on the Spoils table equal to the current Act (Act 2=2 Spoils table rolls)

**Q** When Boarding an Enemy Ship, can all Crew be activated, even if they are Below Deck?

**A** Yes.

**Q** If I am victorious after Boarding an Enemy Ship, where do all of the Crew go?

**A** They are returned Below Deck.
