26 Feb 2024

Study Folder

25.16 French Guard: French YG and OG comprise one big corps. The Guard never has more than one leader and one baggage train. (MORTIER only appears in F-C.) In the F-C battle, if Ney arrives as ALT with the YG, then his formation comprises the 12 units that march on with him and their baggage is the ALT YG Baggage.

27.12 Mode Cards at Start: Coalition Card No. 2 "Late Start" is in effect for the first turn of 17 Feb. Remove Coalition Card No. 5, "Early Arrival." The text (for those not using the cards) is as follows:

LATE START MODE CARD 2/3 (+1) VP

None of your Commanders may move or transmit command until awakened. Roll for each Commander during the friendly Command Phase. Each Commander will awaken:

1. On a die roll of 1; or
2. If an awakened friendly Commander moves into or through the sleeping Commander's hex; or
3. If any Enemy unit engages a friendly unit within 10 hexes of the Commander.

Roll at the start of every Command Phase. On each turn subtract 1 additional from the die. Commanders who enter during the course of the game are not subject to Late Start.

ADDENDA to Coalition Late Start Card No. 2 for 17 February: If Wittgenstein fails to awaken by 8AM he is removed from play (not captured).

"As for Wittgenstein, he retired personally and galloped on Nogent, without even stopping at Provins."

27.2 COALITION ALT REINFORCEMENTS

For balance purposes, divide into 4 ALT Groups:

- #1. GYULAI III/Spleny, Grimmer
- #2. III/Pfluger, Czollich, Arty
- #3. BARCLAY, YERMOLOV, Potemkin, Chrapvitzki
- #4. Richter, Scheltuchin, Gde Arty, Suchasenet

27.41 and 28.54 Control (add): Each player may receive no more than 5VPs per side for Nangis (Mor-3523).

NOTE: Use of ALTERNATE Reinforcements

In some scenarios, one side may have a preponderance of ALT. ALTs should be employed by mutual agreement of the players. Considering the potential to impact play balance, reduce or eliminate appropriately.

TURN RECORD TRACK, Mormant

10 AM. NEY and the Guard troops arrive at 2201 Arcis, 21-Mar, 3 PM Kellermann arrives 0119. Sometimes it should say "Reinf" but it isn't shown on the Initial Setup card. The TRC is correct.
